# What are the Destiny Cards?

According to Robert Lee Camp, “*Each birthday of the year is governed by one of the 53 playing cards (52 plus the Joker). These cards represent personality archetypes, symbols of our personal expression that reflect with amazing accuracy what the important elements of our life will be like. When you study the meaning and significance of your Birth Card, you will have some invaluable knowledge about yourself. You will understand what your natural gifts really are, what sorts of work will bring the most satisfaction, how you interact with others in personal relationships, what are the biggest challenges you are facing this lifetime, and how you can get the most from your life by using the energies that come most easily and naturally to you.*”

## Where do the Destiny Cards come from?

Olney Richmond, a leader of The Order of the Magi, brought the Destiny Cards to the western world in the late 19th and early 20th century. If you'd like to read some articles from 1894 from the 7 Thunders website, [here you are](#).

## Who teaches people how to use Destiny Cards?

The Order of the Magi, led by Robert Lee Camp, author of Love Cards, Cards of Your Destiny, The Art of Performing Transformational Card Readings, and other books, has a training course with beginner, intermediate and advanced levels for avid students of the cards.

A destiny card reading means that a destiny card counselor looks at your cards, and the cards of someone you love, or your cards for the year, and predicts how your next year will go, or how your romantic relationship will go.

### **How does a Destiny Card Reading work?**

When you get a destiny card reading, you have a one hour phonecall with a destiny card counselor. It's helpful to ask questions in an email beforehand so the counselor can get a better understanding of what your deepest needs from the reading are.

When you have the reading, the counselor will often pause and ask you, "does this ring true for you?" or "how do you feel about this?" and allow you to respond. During the reading you will have a printout of your compatibility or yearly chart to look at, so that you can see what is going on with your influences and interactions.

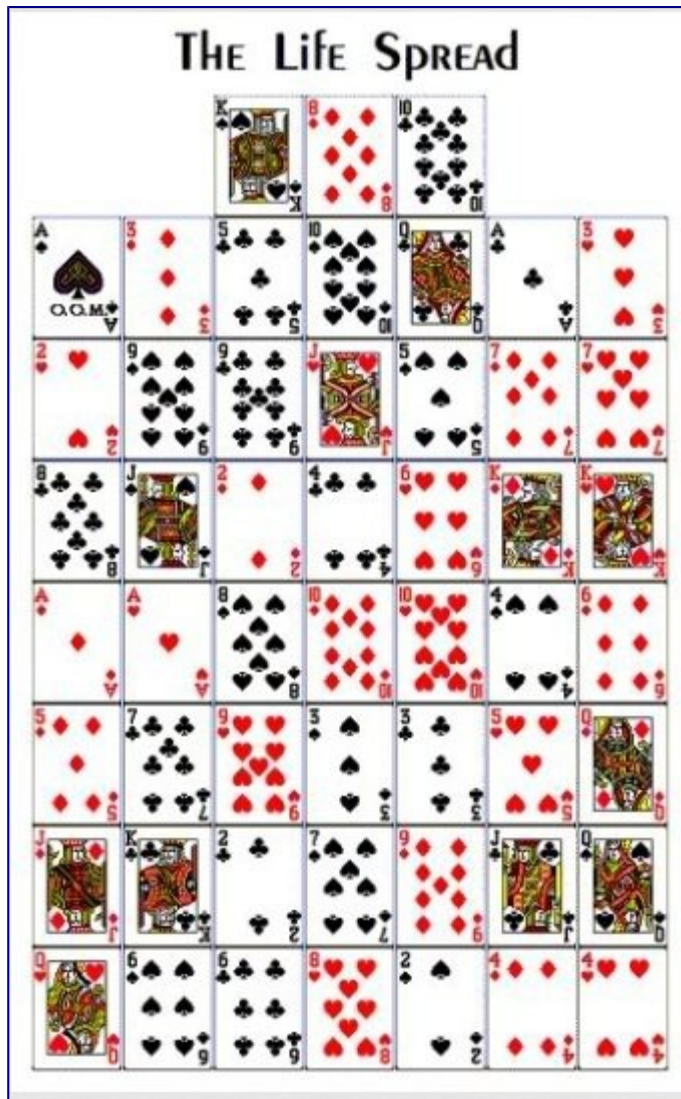

You can get an mp3 of your reading at the end of the call. It's useful to have a destiny card reading when you are about to have your birthday, or have just had it, to get a sense of what this year will bring for you, and it's also useful to get a destiny card compatibility reading when you're entering a new relationship, or when you're in a relationship with someone you want to get along with better. It's also good to get a destiny card reading when you want to learn the outcome of a new business or even a legal issue.

# What's My Card?

With all of the cards in the deck to choose from, which card is yours?

It all depends on the day of your birth. [Go here](#) to look up what your birth card is.

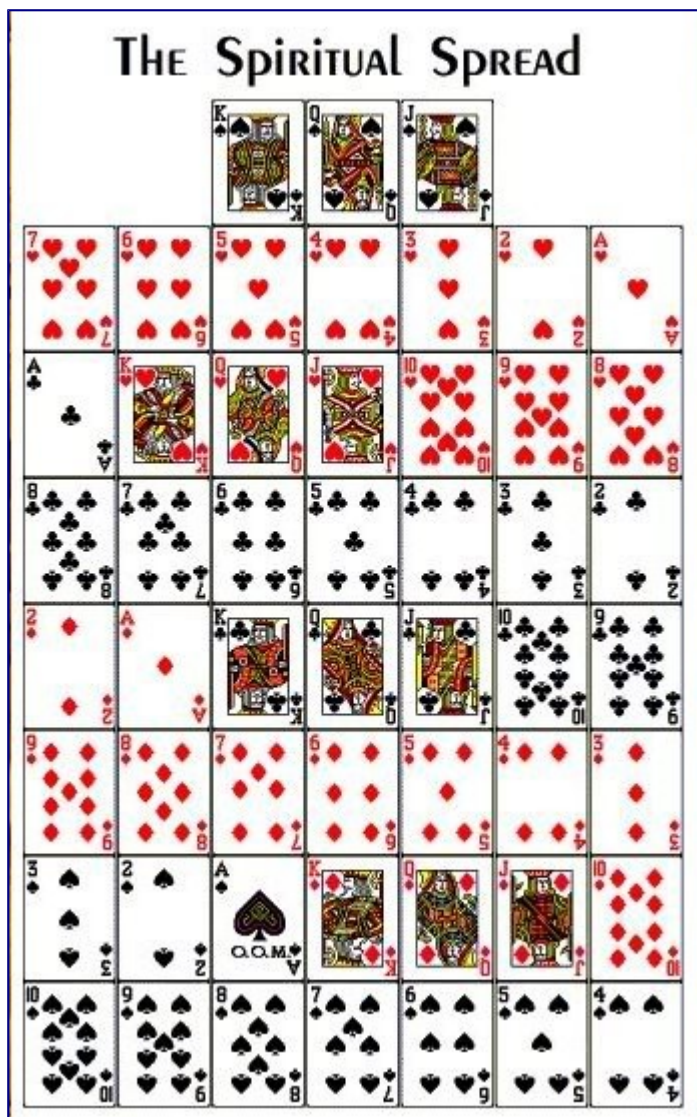

Once you find your birth card, you can find yourself in the Life Spread, shown below.

## Destiny Cards Life Spread

From there, we can determine your birth card, your planetary ruling card, and with the addition of the Spiritual Spread, your four Karma cards.

The Spiritual Spread is shown below.

### Destiny Cards Spiritual Spread

Once you start to see your birth card, and understand it, the next card you'll want to look at is your planetary ruling card, which is determined by your astrological sign, and is essentially another card you act like.

### Finding Your Planetary Ruling Card

Your planetary ruling card IS ruled by the planets!

- Your planetary ruling card is the card next to your birth card if your sign is ruled by Mercury, aka Virgo and Gemini.
- If your sign is ruled by Venus, your PRC is one card away from you, like Taurus and Libra.
- If your sign is ruled by Mars, your Planetary Ruling card is three cards away from you, like Aries.

- If your sign is ruled by Jupiter, like Sagittarius, your PRC is four cards away from you.
- If your sign is ruled by Saturn, like Capricorn, then your PRC is five cards away from your Birth card.
- If your sign is ruled by Uranus, like Aquarius, then your PRC is six cards away from you.
- Finally, if your sign is ruled by Neptune, like Pisces, then your PRC is seven cards away from your birth card.

### **What are Sun and Moon cards?**

When you look up the cards of people around you, such as your mother, father, sisters, brothers, or romantic relationships, you will often see that people around you physically are also near you in the cards. It's not a coincidence.

We often draw people to us who are our Sun cards or our Moon cards. Some of the most successful relationships come when one person is the sun card and one is the moon card, and often the people will have multiple connections. If you are someone's sun card, you sit before them in the life spread. They are your moon card. So, for example, if you are the Ace of Spades, your moon card is the Three of Diamonds. If you are the Seven of Hearts, then your moon card is the Ace of Spades. Everyone is sun to someone and moon to someone else. This can also work with your planetary ruling cards.

Remember, just because you don't like something that you learn about your birth card, it's important to understand the truth about yourself. Once you know the truth about your tendencies, and understand the truth, then the truth can be changed.

# What does it mean to be a Heart?

If you are born as a heart birthcard, you might be down on yourself, because this is the suit of childhood, of love, relationships, it's not the suit of power, or adulthood like the diamonds, not the suit of knowledge, like the clubs, wisdom, or even wisdom and old age, like the spades.

It seems like being born a heart can make you more likely to manipulate others in relationships, to focus on relationships to the exclusion of other things, when society tells us there are so many better things to focus on. You can certainly act out the negative sides of your suit.

The upside of being a heart is that you can learn, instinctively, how to treat others well, how to make others feel good, and how to draw people to you. You can be a wonderful lover. And you cherish your friendships.

Even if you are monetarily successful, full of wisdom and knowledge and mastery, if you don't have love in your life, none of it really matters. Love is something we're all obsessed with, whether we realize it or not, and it can be one of the most powerful forces in the world. It's not logical, it's not something you can predict or make happen.

I like to tell people who are going through heartbreak, "You can't tell your heart what to do." and though it's cold comfort for some, it makes life easier when they realize they don't have to stop loving someone, they don't have to pretend not to be angry or sad or worried or scared or lonely. If you stop and consider the phrase, it simply means, "Accept what is, accept in this moment, how you feel, and be with it."

At the end of your life, if you have treated others well, you'll have lots of friends and family around you, telling you how you made them feel good. And that is very special. And they will remember you.

# What does it mean to be a Club?

What is the suit of clubs all about?

If hearts stand for childhood, clubs stand for adolescence, which is all about rebellion, learning, and getting a sense of self.

Perpetual LEARNING! Being a student. Having lots of books. Loving learning so much that you might have a degree, or two, or three!

Feeling like the perfect information is out there somewhere and if you just learn it, your life will be complete.

Probably most of the money that gets spent in bookstores is spent by clubs. And a lot of your professors were probably clubs too. Clubs take learning very seriously. They love the written word too.

Keywords for clubs: Learning, adolescence, rebellion

# What does it mean to be a Diamond?

Diamonds are third in the cycle of the cards. Hearts represent love and childhood, Clubs represent adolescence, and Diamonds represent adulthood. They also deal with values, money, and desire. Diamonds make some of the best sales people, and also the best marks for sales people. You can talk with them long enough to help them change their values and make them desire what you have for sale.

“Don’t PATRONIZE ME!” was probably said by a Diamond. They really hate to be treated like children. They can be... unusually sensitive to people treating them as anything other than adults.

So, let’s say for example, you have a little brother who is a double diamond. When he was a baby, he was totally okay with you babying him. But NOW? He’s an adult and he does not want to be babied at ALL. And he resents any allusion to him being a child.

As a heart, it can be difficult to understand that. And if you’re the only heart in a family full of double diamonds, as I am, it can be even more alienating. Why is everyone so different from me? Why don’t they talk about their feelings more?

What’s this emphasis on looking good all the time? On doing anything in the cause of making money? This obsession with getting a deal on products? The obsession with buying status items? The obsession with high powered careers?

I have a 2 of diamonds as one of my karma cards, but I confess to being a bit confused about diamonds sometimes. If you’re a diamond, want to talk with me about it?

Diamond Keywords: Adulthood, values, money, desire

# What does it mean to be a Spade?

**Will! Your will versus the Universal Will!**

**Keywords for spades include:** Health, Lifestyle, Will, and WORK. Winter. Old Age.

Spades are powerful people and hard workers. IF you are the only spade in a family full of diamonds and clubs, don't worry, this is pretty common. There are fewer spades and hearts than diamonds and clubs. Spades are less concerned with emotional machinations. Instead they are interested in being aware of how to succeed in their work. They are known to be "old before their time," but also to have wisdom before their peers. They have health issues if they overwork, and must be vigilant in this area. They can be the world's biggest workaholics.

**Who are some famous spades?**

**The Ace of Spades,** Jennifer Aniston, Princess Diana, Billie Holiday, Kelly Rowland, Allen Ginsberg

**The Queen of Spades,** DJ Jazzy Jeff, Christy Turlington, Isaac Asminov

**The King of Spades,** J. Edgar Hoover, FBI Director

As you can see from this distinguished list, even though there are lots more clubs and diamonds than spades, spades manage to distinguish themselves in sciences as well as in literature.

**Ace of spades,** as you can see from the list above, tend to have difficult love lives and

strong workaholic tendencies. They are also the card of the Magi, which means a love of secrets, transformation.

**Two of spades** has a strong instinct for working in partnership, and has a powerful mind.

**Three of Spades** is the artist's card, they can be very creative, and they are also known to get into trouble by not wanting to take responsibility for their situation. Can be crazy.

**Four of spades** is like the sign of cancer, very home oriented and controlling.

**Five of spades** is known as the five of fives. If fives are restless then this five is DOUBLY so! but they also crave stability.

**Six of Spades:** Is basically tremendously smart, talented, their live goes into the crown line early and they can have much success in their lives, even if they are, like Stephen hawking, totally physically disabled.

**Seven of spades** has a tough life healthwise. They have to learn about spirituality and letting go to be satisfied.

**Eight of spades** has a lot of power. The eight of eights. They have to be careful not to abuse their power. For some reason they seem to like making gardens with their work.

**Nine of spades** is a great giver. They also need to learn to let go, even more so than the seven. There will be many endings. They want the power of the eight, and they won't get it.

**The Ten of spades** has a tremendous amount of power. They encapsulate both the ace and the zero, so can also be HUGE workaholics.

**The Jack of spades** is the craftiest jack of all. This can make them super creative but it can also make them a bit crazy.

**The Queen of Spades** wants to learn self-mastery. She is smart, strong, capable, and can change the world.

**The King of Spades** is a fixed card and spends their whole life in the crown line. They are the most powerful card in the deck, but the crown is so heavy that sometimes they want to lay it down and just be a jack, and that is what many of them do. There is only one birthday with the king of spades as the birth card, and that is January 1st.

## Who is your destiny card counselor?

Mazarine (8 of hearts, 6 of clubs) has read Destiny Cards for years.

After reading Robert Lee Camp's Destiny Cards and Love Cards books in 2000, she wanted to learn more. She studied on her own for a few years, then contacted the Order of the Magi and was accepted into their apprenticeship program under Nikki LaMont.

She received the Order of the Magi Certification to perform Transformational Card Readings in 2011.

People have called her readings “startlingly accurate” and “illuminating.”

Discover your future & get help with your love life with Destiny Card Readings.

As an eight of hearts, Mazarine understands “love power” and relationships. She has spent some time researching chinese and western astrology, tarot, and the destiny cards, as well as relationship dynamics within dysfunctional families. She asks questions to help people know themselves better.

As a six of clubs, (the psychic card), she feels a mission to get the information about the destiny cards out into the world, helping more people understand themselves and their relationships.

The reading will take approximately one hour, and is best undertaken with a good understanding about what you want to get out of the reading. You might get a reading around the time of your birthday to see what this year holds. You might get a reading to learn about future romance possibilities, or even get a reading to help understand underlying issues in your current relationship. Maybe you have a difficult relationship with a family member and want more information about how to best proceed with that.
